

For end-to-end solutions in injection molding

***YOU'VE GOT GAIM!***

**GAIM**  
**PLASTICS INC.**

When we talk about GAIM,  
it's really about you.

**At GAIM**, our values guide us in every aspect of our business – always with our eyes on the prize. That prize? Your success.

It begins with our products, **all made in the U.S.A. with 100% recycled materials**. (Our clients feel especially good about that.)

Our values are also reflected in the promises we make...and keep: Quick response times, rapid turnaround, on-time delivery and competitive pricing.

We believe that providing you with high quality products and outstanding services will, in turn, help you keep your own customers happy and loyal.

Yes, your success is our ultimate goal. If that's your goal as well, look no further.

***You've got GAIM.***

# Injection molding...and beyond.

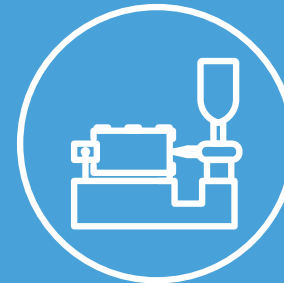

Superior quality injection molding is the primary reason clients come to us. But it's also our many services and secondary operations that make doing business with GAIM an experience that's second to none.

That's the kind of company you've got on your side. When you've got GAIM!

- Sonic Inserting & Welding
- Thermostaking
- Warehousing
- Distribution

## MARKET-READY SERVICES

- Branding
- Packaging
- Retail and Amazon

# FROM DREAM...TO DONE.

Bring us your prototype, or just the idea for one.  
We'll make it happen to your complete satisfaction.  
Here's how...

01

## IDEA

You've hit on a big idea. Now what?  
We'll explain all options, kicking off  
with a consultation.

02

## PROTOTYPING

Based on your input, our team  
will commence with drawings,  
tooling, prototyping and mold  
testing, resulting in a  
production-ready product.

03

## INJECTION MOLDING

Come to us with a product or prototype  
you need molded and manufactured, and  
you've come to the right place. Ingeniously  
designed, competitively priced, every  
part we make comes from 100% recycled  
materials and is made in the U.S.A.

04

## ASSEMBLY

Take advantage of a wide variety of our secondary operations and services that can help drive down cost, reduce lead times and complete the production-line picture.

05

## FULFILLMENT

You've got GAIM to warehouse, drop-ship and distribute your products. Everything it takes for total fulfillment, freeing you of concerns of what to do next.

06

## IMPLEMENTATION

GAIM is a one-stop shop to help sell your product to retail, big box stores and Amazon. We'll save you time and reduce costs along the supply chain, handling all the steps to make your product retail-ready, including Branding, Packaging, Labeling and Palletizing.

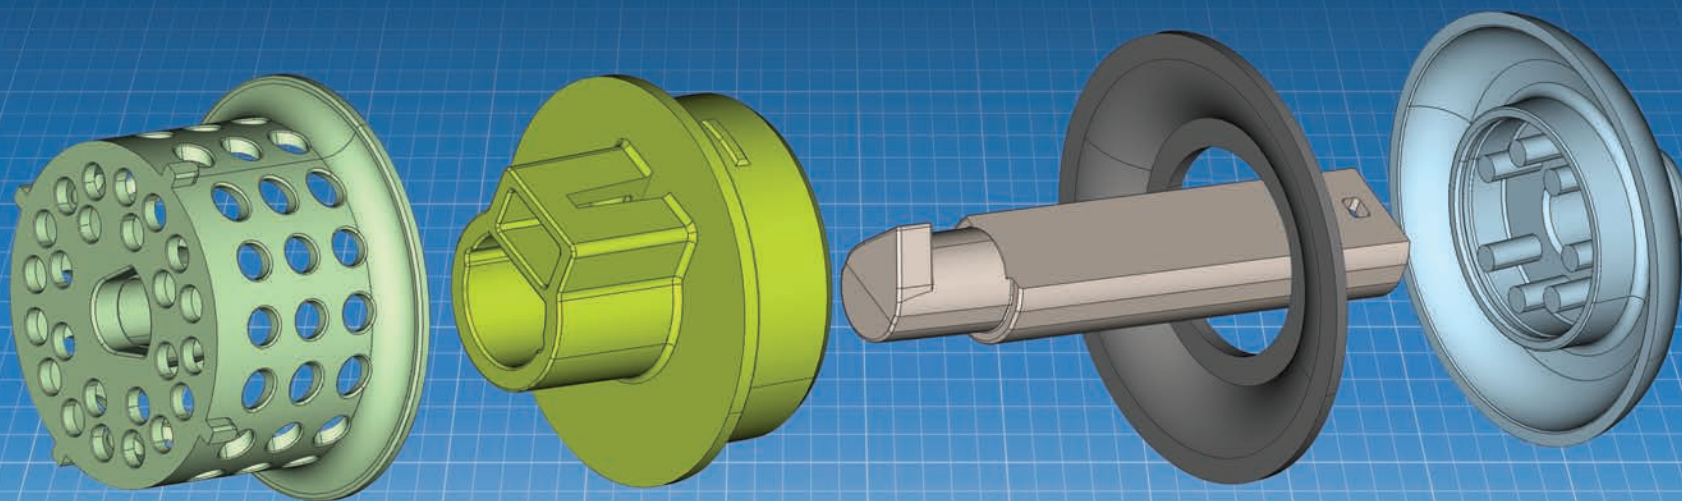

“Made in the U.S.A.”  
made easy

More than ever companies are bringing their products back from overseas to be made here at home. Our network of manufacturers and U.S. vendors have been helping clients make the transformation process easy on so many levels -- including their bottom line.

“Made in the U.S.A.” means...

- Lower lead times to manufacture and ship to your warehouse and customers.
- Reducing inventory levels and dollars spent, freeing up your cash flow.
- GAIM’s central U.S. location will help you reduce shipping costs and transport times across the nation.

Considering reshoring? Let’s talk. Learn how GAIM will make it easy for you to have your products “Made in the U.S.A.” Words to do you (and your customers) proud.

GAIM is proud to have played a vital role in developing and launching the Hair Magnet, a revolutionary new product that solves the problem of clogged drains caused by loose hair.

The Hair Magnet team approached GAIM for assistance in bringing their concept to life, and GAIM's experienced team of designers, engineers, and mold experts stepped up to the challenge.

First, GAIM created detailed 3D drawings of the product, working closely with the Hair Magnet team to get the design right. Then, GAIM built three injection molds for the Hair Magnet and used in-house experts to sample the parts and make any necessary adjustments to ensure fit and function.

GAIM also handled the assembly of all the parts in-house and helped the Hair Magnet team launch the final product on a large e-commerce platform. The Hair Magnet uses GAIM's in-house distribution center for fulfillment to ensure fast and efficient delivery to customers.

GAIM's product development, design, and manufacturing capabilities that were crucial in bringing the Hair Magnet to market quickly and efficiently. With GAIM's expertise, the Hair Magnet was able to get a new and innovative product to market that solves a common problem many people face.
